

Dear TPT Friends:

Thank you for downloading my *Learning Styles SCOOT* game.

I love teaching students about learning styles so that they can learn to better advocate for themselves. This game will introduce or review the different learning styles (visual, auditory, and tactile) while students move around the room and answer questions about their own learning style.

Please do not hesitate to contact me if you have questions about the game. Please take time to review this product. If there is an issue with the product, please contact me first before giving me a negative review so that I can make changes. When you give a fair review, you receive credits which can be used for future TPT purchases.

Also, don't forget to follow me by clicking the green star on my home page. You will be the first to learn about discounted and product freebies!
